

Try it & you will love it Program

What it is? The *DentaKote-S Introductory program* was developed to assist dentists in becoming believers that indeed this product will solve the age-old problem of non-pathologic root surface sensitivity.

How does it work? The simplicity of this program is that there will be no cost to the office or the patient. It is designed to have 2-5 patients in a row that are experiencing the agony of gingival recession and root exposure sensitivity issues. Once those patients have been identified by the treating dentist, they are ALL scheduled at the same day and at the same hour. One of the DentaKote team members or a distributor representative will be on hand to oversee the program to success and completion.

The patients will **ALL** be screened using the DentaKote S protocol. The application will be done by the treating dentist under direct supervision of the team member to verify proper procedure. If all the parameters are met, we expect a 100% elimination of the sensitivity issues immediately.

Once all the 2-5 patients have been treated and the protocol is followed, a review of the findings will be discussed with the doctor and the DentaKote team member.

What is the catch? We all know there is always a catch. This is no different. We feel so confident in the effectiveness of the DentaKote-S product, that we are willing to do this pilot program for select few offices. In exchange, if the results achieved are as expected, we expect the office to order 2 boxes of DentaKote-S for their own patient use and productivity.

Not to worry as a new client. All DentaKote products carry 90 days from the date of purchase with no questions asked money back guarantee if you are not fully satisfied. So, you truly have nothing to lose.

Go ahead, use the product for 90 days. If you are not seeing the results that we claim, just return the unused portion in the original box (office covers the return shipping) and we will refund your money.

To start this program, fill out the simple questionnaire below and let's get you scheduled.

Questionnaire:

1. What is your name? Your office name and address? _____

2. Your telephone numbers: Office: _____ Cell: _____
3. Your email address: _____
4. Do you have patients with root sensitivity now? YES / NO
5. Can you procure 2-5 patients all in one day and at one hour so we can have a team member there to assist you in this pilot program? YES / NO
6. How long will you need to get these patients lined up? _____
Keep in mind, you will have **ONLY ONE** day and one hour to get this done. Our team members are busy with other offices and will not return for a second program visit.

“Try it, You'll Love it Program”

**The World's Best Solution for
Immediately Stopping Root Sensitivity is
